

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 97-514-C - ORDER NO. 98-479

JUNE 25, 1998

IN RE: Application of Network Operator Services,)	ORDER
Inc. for a Certificate of Public Convenience)	APPROVING
and Necessity to Operate as a Reseller of)	CERTIFICATE
Interexchange Telecommunications Services)	
within the State of South Carolina.)	

This matter comes before the Public Service Commission of South Carolina (the "Commission") by way of the Application of Network Operator Services, Inc. ("Network" or the "Company") requesting a Certificate of Public Convenience and Necessity authorizing it to provide intrastate telecommunications services in the State of South Carolina through the resale of similar services offered by other interexchange carriers ("IXCs"). The Company's Application was filed pursuant to S.C. Code Ann. §58-9-280 (Supp. 1997) and the Regulations of the Public Service Commission of South Carolina. Network also requested that its business service offerings be regulated in the same manner as this Commission has permitted for AT&T Communications of the Southern States ("AT&T") as set forth in Order No. 95-1734 and 96-55 in Docket No. 95-661-C.

The Commission's Executive Director instructed Network to publish, one time, a prepared Notice of Filing in newspapers of general circulation in the affected areas. The purpose of the Notice of Filing was to inform interested parties of Network's Application

and of the manner and time in which to file the appropriate pleadings for participation in the proceeding. Network complied with this instruction and provided the Commission with proof of publication of the Notice of Filing. No Petitions to Intervene or Protests were filed.

A hearing was commenced on May 28, 1998, at 11:00 a.m., in the Commission's Hearing Room. The Honorable Guy Butler, Chairman, presided. Network was not represented by counsel. The Commission Staff was represented by Florence P. Belser, Staff Counsel.

Mark Carter, Manager of Tax and Regulatory Affairs of Network, appeared and offered testimony in support of Network's Application. The record reveals that Network is a corporation organized under the laws of the State of Texas and is authorized to transact business in South Carolina as a foreign corporation by the South Carolina Secretary of State. According to Mr. Carter, Network intends to provide switchless resale interexchange telecommunications services from points of origin within South Carolina to points of termination within South Carolina, other parts of the United States, and foreign countries. Network also intends to provide Operator Services, with a primary marketing focus on pay telephone providers. The record reveals the Company's services, operations, and marketing procedures.

Mr. Carter also explained that Network possesses the technical, financial and managerial abilities to provide its services in South Carolina. Mr. Carter testified that the Company would operate in accordance with the Commission rules, regulations, guidelines, and Commission Orders. Finally, Mr. Carter offered that approval of

Network's Application is in the public interest as approval of Network's Application will promote greater competition in the interexchange marketplace.

After full consideration of the applicable law, the Company's Application, and the evidence presented at the hearing, the Commission hereby issues its findings of fact and conclusions of law:

FINDINGS OF FACT

1. Network is organized as a corporation under the laws of the State of Texas and is authorized to do business as a foreign corporation in the State of South Carolina by the Secretary of State.
2. Network operates as a non-facilities based reseller of interexchange services and wishes to provide its services in South Carolina.
3. Network has the experience, capability, and financial resources to provide the services as described in its Application.

CONCLUSIONS OF LAW

1. Based on the above findings of fact, the Commission determines that a Certificate of Public Convenience and Necessity should be granted to Network to provide intrastate interLATA service and to originate and terminate toll traffic within the same LATA, as set forth herein, through its own facilities and through the resale of intrastate Wide Area Telecommunications Services (WATS), Message Telecommunications Service (MTS), Foreign Exchange Service, Private Line Service, or any other services authorized for resale by tariffs of carriers approved by the Commission.

2. The Commission adopts a rate design for Network for its resale of residential services which includes only maximum rate levels for each tariff charge. A rate structure incorporating maximum rate levels with the flexibility for adjustment below the maximum rate levels has been previously adopted by the Commission. In Re: Application of GTE Sprint Communications Corporation, etc., Order No. 84-622, issued in Docket No. 84-10-C (August 2, 1984).

3. Network shall not adjust its residential rates below the approved maximum level without notice to the Commission and to the public. Network shall file its proposed rate changes, publish its notice of such changes, and file affidavits of publication with the Commission two weeks prior to the effective date of the changes. However, the public notice requirement is waived, and therefore not required, for reductions below the maximum cap in instances which do not affect the general body of subscribers or do not constitute a general rate reduction. In Re: Application of GTE Sprint Communications, etc., Order No. 93-638, issued in Docket No. 84-10-C (July 16, 1993). Any proposed increase in the maximum rate level for residential services reflected in the tariff which would be applicable to the general body of the Company's subscribers shall constitute a general ratemaking proceeding and will be treated in accordance with the notice and hearing provisions of S.C. Code Ann. §58-9-540 (Supp. 1997).

4. With respect to Network's business service offerings including credit card services, operator services, and customer network offerings, the Commission adopts a relaxed regulatory scheme identical to that granted to AT&T Communications in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C. Under this relaxed regulatory scheme,

tariff filings for business services shall be presumed valid upon filing. The Commission will have seven (7) days in which to institute an investigation of any tariff filing. If the Commission institutes an investigation of a particular tariff filing within the seven days, the tariff filing will then be suspended until further Order of the Commission. Any relaxation in the future reporting requirements that may be adopted for AT&T shall apply to Network also. Staff is instructed to monitor Network using the same monitoring process and techniques as are used to monitor AT&T.

5. If it has not already done so by the date of issuance of this Order, Network shall file its revised tariff and an accompanying price list within thirty (30) days of receipt of this Order. The revised tariff shall be consistent with the findings of this Order and shall be consistent with the Commission's Rules and Regulations.

6. Network is subject to access charges pursuant to Commission Order No. 86-584, in which the Commission determined that for access purposes resellers and facilities-based interexchange carriers should be treated similarly.

7. With regard to the Company's resale of service, an end-user should be able to access another interexchange carrier or operator service provider if the end-user so desires.

8. Network shall resell the services of only those interexchange carriers or LECs authorized to do business in South Carolina by this Commission. If Network changes underlying carriers, it shall notify the Commission in writing.

9. With regard to the origination and termination of toll calls within the same LATA, Network shall comply with the terms of Order No. 93-462, Order Approving

Stipulation and Agreement, in Docket Nos. 92-182-C, 92-183-C, and 92-200-C (June 3, 1993).

10. Network shall file surveillance reports on a calendar or fiscal year basis with the Commission as required by Order No. 88-178 in Docket No. 87-483-C. The proper form for these reports is indicated on Attachment A.

11. The Company shall, in compliance with Commission regulations, designate and maintain an authorized utility representative who is prepared to discuss, on a regulatory level, customer relations (complaint) matters, engineering operations, tests and repairs. In addition, the Company shall provide to the Commission in writing the name of the authorized representative to be contacted in connection with general management duties as well as emergencies which occur during non-office hours. Network shall file the names, addresses and telephone numbers of these representatives with the Commission within thirty (30) days of receipt of this Order. Attachment B shall be utilized for the provision of this information to the Commission. Further, the Company shall promptly notify the Commission in writing if the representatives are replaced, and the Company is directed to comply with the Commission regulations unless waived by the Commission.

12. This Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

Chairman
